FOUNDATION SYSTEM // ERROR MAPPING

FOUNDATION SYSTEM // ERROR MAPPING

Observe repeated friction points for 7 days. Notice patterns without judgment.

Threshold Layer	Builder Action
Observe	Pattern recognition
Map	Find system weakness
Adjust	Build adaptation
Repeat	Compound growth

GLITCH ARCHITECTURE

Glitches become information. Information becomes systems.

ADAPTATION ENGINE

ERROR -> SYSTEM -> EVOLUTION

BUILDER LAYER

Observe. Adapt. Improve. Repeat.

TRANSMISSION // PARTIAL RECOVERY

ERROR THRESHOLD ACTIVE
PATTERN DETECTED
SYSTEM ADJUSTMENT ACTIVE
SHADOW CONFLICT PENDING

CONSTELLATION LAYER

Adaptation compounds capability. Capability compounds possibility.

SIGNAL ANOMALY

Repeated friction reveals architecture.

Signal Fragment: 01010011 01001000 01000001 01000100 01001111 01010111

HORIZON LAYER

Builders study resistance instead of hiding it.

RECOVERED FRAGMENT

Systems reveal patterns. Patterns reveal possibility.
